

## NOTICE OF PUBLIC INFORMATION CENTRE

### REHABILITATION OF THE LONG POINT CAUSEWAY FROM LAKESHORE ROAD TO ERIE BOULEVARD, INCLUDING THE REPLACEMENT OF THE LONG POINT CAUSEWAY BRIDGE OVER BIG CREEK

The Norfolk County and their consultant Parsons Inc., is currently undertaking a **Municipal Class Environmental Assessment (EA)** for the rehabilitation of the Long Point Causeway, from Lakeshore Road to Erie Boulevard, as well as the replacement of the Long Point Causeway Bridge over Big Creek. The study is being undertaken to address deteriorating road and bridge conditions, as well as transportation needs along the Causeway. Recommendations will consider the environmental sensitivity and cultural heritage significance of the area, as well as impacts to local residents and cost.

This Class EA will follow Schedule "B" of the *Municipal Class EA (October 2000, as amended in 2007, 2011 & 2015)*. As public consultation is a key element of the EA planning process, a Public Information Centre (PIC) will be held to share study details with the public. The PIC is scheduled for:

**Date:** Friday, August 11, 2017  
**Time:** 1:00 p.m. – 4:00 p.m.  
**Location:** Port Rowan Community Centre  
14 College Avenue, Port Rowan

The PIC will be held as a drop-in center where attendees can freely browse the display boards, which will be used to present and obtain feedback on:

- The Municipal Class EA planning process;
- The study background and existing conditions; and,
- Alternative and recommended solutions.

Following the PIC, the recommended solution(s) developed for the corridor will be confirmed in consideration of the comments received. For more information on the project, or if you wish to be added to the project mailing list, please contact either of the following project team members:

**Jeff Demeulemeester, C.E.T.**
