

NOTICE OF STUDY COMMENCEMENT

REHABILITATION OF THE LONG POINT CAUSEWAY FROM LAKESHORE ROAD TO ERIE BOULEVARD, INCLUDING THE REPLACEMENT OF THE LONG POINT CAUSEWAY BRIDGE OVER BIG CREEK

The Norfolk County and their consultant Parsons Inc., has initiated a **Municipal Class Environmental Assessment (EA)** for the rehabilitation of the Long Point Causeway, from Lakeshore Road to Erie Boulevard, as well as the replacement of the Long Point Causeway Bridge over Big Creek. The study is being undertaken to address deteriorating road and bridge conditions, as well as transportation needs along the Causeway. Recommendations developed for the corridor will consider the environmental sensitivity and cultural heritage significance of the area, as well impacts to local residents and cost.

This Notice marks the commencement of the Class EA, which will follow Schedule "B" of the *Municipal Class EA (October 2000, as amended in 2007, 2011 & 2015)*, which is approved under the Ontario Environmental Assessment Act. A key element of the EA planning process is public, stakeholder and technical agency consultation and input, which will be sought throughout the study. At this time, it is anticipated that one (1) Public Information Centre (PIC) will be held to share project details and progress with the public. Information regarding the PIC will be advertised to the public and a Project File Report will be prepared and placed on the public record for 30 days for public review and comment.

For comments, questions or more information on the project, or if you wish to be added to the project mailing list, please contact either of the following project team members:
